

Introducing PetFelt Acoustic Ceiling Rafts: a cutting-edge solution designed to elevate acoustic performance while enhancing the aesthetic appeal of your space. These rafts represent a fusion of innovation and sustainability, crafted from our high-density PetFelt Fibre for both durability and refined aesthetics.

Installed with ease, our acoustic ceiling rafts come complete with adjustable cable kits and fixtures, ensuring a hassle-free setup process. Their versatile design allows for seamless integration into various environments, making them an ideal choice for a wide range of acoustic projects.

| Product name | PetFelt Ceiling Raft | | | | | |
|-------------------------------|---|--|--|--|--|--|
| | | | | | | |
| Composition | 100% polyester fibre, of which a minimum of 75% is post consumer recycled polyester fibre (from PET bottle-flake) | | | | | |
| Standards | ISO 900, ISO 14001 Quality and Environmental Management Systems. RO SVHC, REACH | | | | | |
| Dimensions | 1200*600mm, 1200*1200mm, 2400*600mm (+/-1 mm) or customised | | | | | |
| Fire rating | EN13501-12007 - Class B | | | | | |
| Thickness | 24mm (+/-1mm) | | | | | |
| Density | 4800gsm (+/-200g) | | | | | |
| Performance (1200*1200*24mm) | AirGap (200mm) = 1.6 | | | | | |
| | $\frac{(m^2 \operatorname{sabin})}{\operatorname{AirGap}(400 \operatorname{mm})} = 1.6$ | | | | | |
| | (m2 sabin) | | | | | |
| | AirGap (800mm) = 1.7 | | | | | |
| Colour (refer to chart below) | 60 (available) | | | | | |

Size: 24mm (3500gsm)

Size: 9mm | 12mm | 24mm (4800gsm)
