GB | ACOUSTICS

Introducing our cutting-edge Free-Standing Portable Acoustic Screens – your ultimate solution for achieving acoustic excellence in a variety of settings. Whether you're creating a focused workspace in offices, recording crystal-clear voiceovers or vocals, producing top-notch podcasts, establishing tranquil Classroom Quiet Spaces, or designing dynamic Break-Out Areas, our screens are engineered to elevate your acoustic experience.

PetFelt also offers a range of customisation options. Whether you prefer carving, etching, or printing, there's no need for additional finishing touches. And if you have a specific vision in mind, our in-house design team is available to turn your ideas into reality.
